

LoadHandler™ Alternators

Dual Internal Fan Design for Transport Refrigeration Applications

12V, 70- and 105-Amps
Reliable Power Source for Performance-Critical Market

New service LoadHandler alternators for heavy duty refrigeration trailer and truck units from Prestolite Electric provide reliability and performance to cover virtually the entire transport refrigeration market, including Carrier Transicold refrigeration units utilizing Kubota and other engines. Featuring a dual internal fan design, the latest LoadHandler alternators provide reliable performance in a high-temperature environment through a compact size that doesn't compromise airflow or cooling performance.

Prestolite Electric application-specific, value-driven LoadHandler alternators help to extend service life, improve performance and provide more reliable vehicle uptime.

FEATURES	BENEFITS
Dual Internal Fan Design	Maintains optimum bearing temperatures during operation & minimizes heat damage for longer service life – the cooling power of the popular IdlePro™ products
Premium Brushed Style	Durable design for a wide range of operating conditions
eCoated & Heavy Duty Housing	Improves corrosion resistance & better withstands extreme applications and vibrations as compared to conventional housings
Heavy Duty Front & Rear Bearings	Provides extended service life capability
Innovative Rotor Design	State-of-the-art rotor performs when you need it most
Fully Application Tested	Industry-leading performance testing ensures proper engagement in high heat conditions
Completely New Unit	No core return required & direct drop-in design

SPECS	
System Voltage	12V
Temperature Rating	-30°C to 105°C
Mounting	1" Spool Foot
Rotation	Counter clockwise
Diodes	6 Avalanche diodes
Shaft Diameter	A1737B, 17 mm Shaft A1737C, 17 mm Shaft A1738B, 88.4 mm Pulley Diameter A1738C, 88.4 mm Pulley Diameter A1739B, 5/8" Shaft A1742B, 5/8" Shaft
Weight	70-Amp, 9 lbs. 105-Amp, 9.3 lbs.
Warranty	Truck Applications, 1-Year*
